CARNIVAL WOMAN'S REVOLVER FINDS TARGET IN RAIL-ROAD MAN.

A message from Massie Hospital at 10 o'clock last night said that Parker had just died.

As the result of an encounter which took place Saturday night in the closing hours of the engagement of a "carnival company" in this city, Neal Parker, an L. & N. railroad man, was shot through the right lung, and once in the abdomen. The gun-user was Mrs. Pauline Fleeman, one of the women connected with the carnival company.

Conflicting stories have gained circulation as to the cause of the trouble which resulted in the shooting, but it seems to be a well-authenticated one that Parker, while intoxicated, visited the carnival grounds, where his son was employed by the Fleeman woman, who was operating what is called in carnival show parlance "a cat-rack," at which balls are thrown at targets formed in the shape of felines. Parker charged the Fleeman woman with leading the boy away, which she stoutly denied, and claimed that he sought employment with her on his own initiative, and that she employed him because she needed help at the time. Parker, it is alleged, became very abusive, and applied several harsh names to the woman, ending by seizing several of the balls and throwing them at her. Eye witnesses go further and state that Parker slapped the woman, tore a ring from her finger and finally knocked her down. Upon rising from the ground, Mrs. Fleeman grasped a revolver which was laying close to the cash-box on a stand near at hand, and fired twice at Parker, the first shot striking him in the right breast, penetrating the lung, the second taking effect in his abdomen, about an inch to the right of the navel.

Although desperately wounded, Parker ran to his home, near the carnival grounds, a short distance away, and soon returned with a revolver. The Fleeman woman in the meantime had secreted herself behind a tent in the vicinity, and when Parker returned he mistook another woman for his intended target and fired three shots at her. The training she had received after years of life on the plains of the West saved the woman's life, as, seeing Parker's intentions she dropped flat on the ground behind a box and crawled to safety, while the shots passed harmlessly over her.

The shooting broke up the proceedings on the carnival grounds, which were filled with men, women and children. The riders on the merry-go-round hastily tumbled from their steeds and sought safety in flight, while the screams of women and children filled the air. The police were notified and went to the Mitchell boarding house, where the company had been staying, and placed Mrs. Fleeman, who had gone there after the shooting, under arrest. The wounded man was taken to the Massie Memorial Hospital, where he was given attention by physicians who had been hurriedly summoned. Mrs. Fleeman was taken to the jail, where she was placed to await the outcome of Parker's injuries. Efforts of members of the carnival company to have the examining trial held yesterday were refused by County Attorney D. D. Cline, who refused to sanction it on account of the uncertainty of Parker's condition.

Parker has been with the Louisville & Nashville for a number of years as section foreman, being lately in charge of the section near the Tenth street passenger station. He has a wife and several children. To one of the attendants at the jail Mrs. Fleeman stated that she had spent several years on a ranch as a cowgirl, where she had become familiar with the use of firearms. She would not discuss the shooting in any of its details.

FARM FOR RENT.

See advertisement in another column of the farm for rent belonging to W. E. Hibler. The place contains 556 acres and is located near Ewalt's Cross Roads. If interested, address Mr. W. E. Hibler, 312 E. High St., Lexington, Ky. (6-tf)

FINANCIAL MEN WANT OUR CITY BONDS.

Following the recent publication in THE NEWS of the sale of \$20,000 worth of sewer bonds for the city of Paris, City Clerk Hayden received replies from over thirty financial firms in different money centers, making inquiries as to the bonds. This is taken as an evidence of the stability of Paris' financial condition and as showing these financiers had great faith in the ability of the city to redeem its pledges, besides offering them a good investment. Many other nearby cities have been unable to dispose of their city bonds, the financiers evidently preferring financially solid cities like Paris for their investments.

HOWARD'S CASE UNDER ADVISEMENT IN COVINGTON.

In the United States Court at Covington, Friday, Rolla H. Howard, of Paris, who was recently arrested here on a charge of obstructing the operations of the draft act, was given a hearing before Judge A. M. Cochran.

Howard appeared in Court to answer the charge of a violation of the espionage act. He requested to be allowed to plead guilty to the charge of impersonating a Federal officer. Former County Clerk A. E. B. Stevens, of Hamilton county, O., addressed the Court in Howard's behalf. Judge Cochran took the case under advisement and said he would consider all the facts. Howard had been indicted by the special Grand Jury.

Howard was arrested here after it is alleged he endeavored to obtain money from Russell Day, a draftee, under promise to have him placed in a deferred classification, by representing himself to be a Federal officer. A trap was laid which resulted in Howard's arrest. Howard claims Ludlow, Ky., as his home. He is well-known in Covington, where he was employed for many years as a barber.

Since Howard's arrest rumors have connected him with a number of shady transactions, in which Paris and Bourbon county people were victims. One apparently authentic rumor stated that he had bunkoed a Hutchison Station farmer out of \$1,400 by a smooth-talk game, and that he had also purchased on the "talk-talk" plan a fine automobile from a local dealer, and had disposed of it for a cash value. Other rumors coming from seemingly good sources, were to the effect that he had ingratiated himself into the good graces of several Paris business men, from whom he obtained several sums of money. Coupled with these rumors was a statement to the effect that Howard had arranged a costly "chicken supper" for several city officials, which event had been scheduled for the night on which he was arrested.

Whatever portion of truth or untruth there may be as foundation for the stories, the fact remains that Howard was playing the part of a smooth citizen during his residence here.

SACKS FOR RENT OR SALE

Wheat sacks for rent or sale. Wanted—Barn cured clover hay, rye or barley.

PAIGE AND BRISCOE AUTOMOBILES.

Special features of the Paige Car, self-grinding valve and transmission lock, thief-proof.

Features of the Briscoe are the small upkeep and economy in gasoline. Ask for demonstration.

(tf) F. P. WHITE, Agent.

A DAM PROPOSITION SETTLED.

It now looks like a new dam across Stoner Creek will be built in the near future. A question that has long been discussed between the Paris Milling Co., the L. & N. Co., the Paris Water Company and the city of Paris, has about reached a satisfactory settlement.

Representatives of the city and the other concerns met at the office of the Mayor yesterday morning and practically completed all arrangements for the proposed new improvement.

The proposed new dam is to be built of concrete and will be located just below the present old dilapidated concern that has failed to perform its requirements for the past several years.

A proposition was made to the railroad company to construct the new dam, for which they are to receive 10 per cent. above the cost of the work, the Milling Company and the Water Company to bear the expense. Supt. J. A. Morrison and attorney E. M. Dickson will submit the proposition to the higher officials of the railroad for their approval and work is to start immediately after the O. K. of same has been received.

It is understood that the proposition is agreeable to all parties concerned, and "the dam question" it is hoped, will be settled for all time, when the L. & N. gives its official consent to the proposed project.

The city was represented at the conference by Mayor January, Councilmen Veach and Kiser, and City Attorney Denis Dundon and Attorney J. J. Williams, Chairman Merringer being absent on account of the death of his father, the Railroad Company by Attorney Dickson and Mr. J. A. Morrison, the Water Company by Supt. Newt. Mitchell.

BATHING SUITS

SARATOGA SALE OF HANCOCK HORSES BRINGS BIG PRICES

Twenty-six yearlings, the property of A. B. Hancock, master of Claiborne Stud, near Paris, Ky., and Ellerslie Stud in Virginia, were sold at Saratoga Springs, near New York, Friday, for a total of \$64,300, a net average of \$2,473. Three others listed in the consignment, two the property of Captain Walker, swelled the total to \$16,000, making a grand total of \$80,300 for the 29 youngsters, completing the Hancock catalogue.

The star of the sale was the black colt by the English sire Black Jester, out of imported Primula. His presence in the ring developed a spirited bidding tilt between Commander J. K. L. Ross and S. D. Ridie. The latter retired after bidding \$14,100. Commander Ross raising \$14,000 and securing him for \$14,500.

The second highest priced colt, a chestnut son of Celt—Network, a brother of Embroidery, went to Jas. W. McClelland for \$10,000.

The chestnut colt by Celt—Ballet Girl, half brother to Edward B. McLean's crack The Porter, was secured by Commodore Ross for \$9,000. The sale was attended by one of the most representative audiences that has been in evidence at a yearling sale in years. The Hancock consignment were a likely-looking lot, and the lowest-priced one realized \$550.

PAIGE AND BRISCOE AUTOMOBILES.

Features of the Briscoe are the small upkeep and economy in gasoline. Ask for demonstration.

(tf) F. P. WHITE, Agent.

GOOD PRICES REALIZED AT DUROC HOG SALES.

At the midsummer sales of Duroc Jersey hogs, held at Mayfield Farm, near Lexington, was sold fifty head for \$11,005, an average of approximately \$222 a head, and McKee Bros., Forest Home Farm, Versailles, Ky., sold 48 head for \$9,480, an average of \$200 a head.

The attendance and spirited bidding at both sales was indicative of the popularity of Durocs, and Mayfield Farm and McKee Bros. herds.

Three March boar hogs, not catalogued, were sold to W. R. Markwell, Versailles, D. A. Richardson, Muncieville, and E. V. Snell, Paris, for \$261.

It is probable that the chapters of the American Red Cross will be called upon to co-operate in the local activities.

The campaign has not yet started in this city and county, and seems to be waiting on some one taking the initiative. No registration cards have been received and no definite plans for promoting a local campaign have been formed, or at least made public yet.

May we urge that you do everything possible to make the campaign a success and that you refer those making inquiry in regard to admission to the training schools to the recruiting station in this community for information and blank forms.

WE KNOW HOW

Palm Beach and

Kool Kloth Suits

For Summer Wear, the Real, Genuine Palm Beach Cloth

The kind that is cool and serviceable and comfortable, not the cotton shoddy kind that draws up and wears out before the season is over. We sell only one kind, and that is the best. All colors, solid and fancy mixtures.

HELD TO THE GRAND JURY ON CUTTING CHARGE.

With his neck and throat swathed in bandages Albert Bush, a Millersburg colored man, appeared in the County Court before Judge Batterton, Friday, as chief witness against Albert Secret, another colored man from the same town. Secret and Bush became involved in an alteration, in the course of which Secret inflicted several ugly gashes in Bush's neck and throat, which required several stitches to close.

After hearing the testimony pro and con, and examining a number of character witnesses for both sides, Judge Batterton held Secret to answer before the Grand Jury at the next term of the Bourbon Circuit Court on a charge of malicious cutting and wounding. He was remanded to jail, being unable to furnish bond.

HELP THIS RECRUITING.

The American Red Cross and the Council of National Defense, through the Nursing and Woman's Committee are uniting in their forces to conduct an immediate, short and intensive campaign to enroll a United States Student Nurse Reserve for training schools in both army and civilian hospitals in order that every vacancy shall be filled.

The most vital work in this campaign is the actual recruiting and this cannot be done in Washington. This important task has been delegated to the State Divisions and County and Local Units of the Woman's Committee of the Local Council of National Defense.

The campaign opened on Monday.

Recruiting stations will be provided through the Woman's Committee of the Council of National Defense in this community.

It is probable that the chapters of the American Red Cross will be called upon to co-operate in the local activities.

The campaign has not yet started in this city and county, and seems to be waiting on some one taking the initiative. No registration cards have been received and no definite plans for promoting a local campaign have been formed, or at least made public yet.

May we urge that you do everything possible to make the campaign a success and that you refer those making inquiry in regard to admission to the training schools to the recruiting station in this community for information and blank forms.

IN THE SERVICE OF THEIR COUNTRY.

Fielding Rogers, came home from Camp Zachary Taylor, Saturday for a furlough visit to relatives, returning to the camp yesterday.

Dr. J. T. Vansant received information Saturday from his son, Sergt. Maj. Edgar Vansant, that he had been given command of a squad of eighty soldiers to be transferred from Camp Jackson, near Columbia, S. C., to Camp Zachary Taylor. Sergt. Maj. Vansant is with the Tenth Battalion of the Field Artillery.

A card from one of the Bourbon boys who left Paris some time ago for Camp Zachary Taylor, says: "We are en route to Camp Sheridan, Alabama. Darned sorry they did not send us over the L. & N. so that we could see 'the old home town' again. All fit to kill the Kaiser. Regards to all from Bourbon county's fighting twenty-one draftees."

Sergt. Robert Sims, formerly of Paris, writes his step-mother, Mrs. Rebecca Freeman Sims, of Paris, that he has landed safely at a French port. Sergt. Sims is a member of Co. D., 32d U. S. Engineers. He said all his company were in the best of health and physically fit to cope with any other body of men in Europe.

Sergt. Robert Sims, formerly of Paris, writes his step-mother, Mrs. Rebecca Freeman Sims, of Paris, that he has landed safely at a French port. Sergt. Sims is a member of Co. D., 32d U. S. Engineers. He said all his company were in the best of health and physically fit to cope with any other body of men in Europe.

After spending four months in an army hospital as the result of injuries sustained from being kicked by an army "mule," Corp. Vance Huffman is improving to such an extent that he will soon be able to stand the physical strain of a visit. He writes to Paris friends from the convalescent hospital at Camp Sheridan, Ala., that he hopes to come to Paris very soon on a furlough.

Sherman R. Snapp, formerly of Paris, is an attaché of the Headquarters Company at Camp Lewis, in Washington, where he is Interview Clerk, writes to Paris relatives that "this is the coldest climate to be called summer" he has ever experienced, and wants to know if it is hot in Kentucky. Mr. Snapp had high-colored time last week, his task being to assist in "interviewing" 3,500 colored men.

To have three sons in the service of Uncle Sam and to be proud of each one is the boast of Mrs. Janie Steele, colored, of Paris. One of the sons, Dan Steele, who was for many years in the employ of Cahal Bros., came in Sunday on a six-days' furlough visit. He is now a full-fledged seaman on the U. S. S. Kearsarge, stationed on the Atlantic coast. Another son, Will Stanley, is now in France, and another is at Camp Sherman, near Chillicothe, Ohio.

The misfits have landed safely at their destination, Vancouver, Canada, Vancouver, Washington, according to a postcard received by THE NEWS Sunday from Ireland "Bit" Davis. The card stated that he and his companions in misery had arrived safely at Vancouver after a wonderful, hot, dry and dusty trip across the continent. "Bit's" first request was to have THE NEWS sent to him regularly, thereby evincing a discriminating taste in his selection of literature.

In notifying THE NEWS of his transfer from Co. D. to Co. L. in the aviation service at Great Lakes, Jo. Davis, Jr., of Paris, states that the camp is a veritable sea of activity, with everybody getting into good trim for hard work. Mr. Davis offers suffering Paris people the consolation of writing in regard to weather that the weather there has been fine, having had but two really hot days. In the past few days the weather has been cool, with a delightfully cool breeze coming from the lake. Mr. Davis says, in conclusion, "If those dandy Americans, French, British, Australians, Canadians, and all those splendid fighters continue to put the Broches on the run, we may soon be sent home, so we can hear all the news at first-hand."

Five applications for enlistment were received for the naval service at the naval recruiting office in Lexington, Saturday. One of the applicants was Charles Robertson, colored, of Paris, who enlisted as a mess attendant.

Ben Leach arrived last night from Portsmouth, N. H., on a nine-days' furlough. He is on the battleship, Montana, one of Uncle Sam's good ships that sees the transports safely landed in France. Ben has just returned from "over there," and says the U-boats has no terror for him and his ship-mates.

Sergt. Harry Barlow and Corp. Allen Huddleston, Bourbon county boys, were at home from Saturday evening to last night, on furlough from Camp Zachary Taylor and the artillery practice range at West Point, Ky. They say everybody in the camp is getting ready to help win the war, and that Bourbon county boys are everywhere in evidence.

Instead of waiting for the official call that would eventually take him overseas, Forrest Day, of Paris, while in Covington as a witness in the case of Rolla H. Howard, went to Fort Thomas, where he enlisted and reported for duty. Day was given time to return to Paris and arrange his business affairs. He was here from Saturday to Monday attired in the khaki, returning to Ft. Thomas last night.

PREPARING FOR NEW ARMY DRAFT REGULATIONS

Judge C. A. McMillan, Chairman of the Bourbon County Board of Exemption, received a letter yesterday from headquarters of the selective draft service, ordering him to prepare for the contemplated raising of a new army of draft men under the call for men of ages 18 to 45. The letter stated that the bill, which would be presented to Congress upon reassembling of that body, would undoubtedly be enacted into law, and advised him to be ready by appointing registrars to attend to the business of registering men for the service.

The letter gave Sept. 5 as the probable date for the registration, and stated that all men physically fit, between the ages of 18 and 21, and 31 and 45, will be

EDITORIAL MUSINGS.

Some Timely Don'ts.
Don't slacken up in your work.
Don't get the idea the Red Cross will have an over supply of the needed articles.

Don't flatter yourself that this horrid war will be over in a few weeks or months.

Don't come to the conclusion that your services are not needed by the Red Cross.

Don't stay out with the slackers and allow others to do your work and bear your burdens.

Don't say to the noble boys who are leaving home "I had no interest in you after I said 'good-bye.' You may live or die. You may be wounded or sick and sorely need the attention, clothing, bandages and careful nursing the army cannot give you, but I cannot bring myself to the point where I will make a single sacrifice or perform a single service to help you."

Don't allow this great army of our splendid young manhood to take up the burden of the defense of our country, our own homes and fire-sides, shedding their precious blood on many foreign battlefields and when the war is over and these brave boys—those that are left—come marching home to be taken into the arms of a loving and grateful people. Don't let it be said that your heart was cold, and your avarice and iniquity was so great that you never contributed a dollar or made one sacrifice for their comfort while they were away.

What To Do In Paris.

Don't fail to sound its praises wherever you are.

Don't make your money out of its citizens and spend it somewhere else.

Don't frown on every public improvement simply because it will cost you a dollar or two.

Don't sneer at the efforts of your fellow citizens to build up the town, but lend a hand yourself.

Don't talk a great deal about what should be done and remain on the back seat waiting for someone else to do it.

Don't say the public schools are a failure because your boy has been upsetting the school's discipline and has been punished.

Don't stay at home on election day, but get out and hustle for good men and good government.

Don't let a good local paper that is the town's untiring champion abandon the champion business because of lack of deserved patronage.

Don't forget to drop your dollar in the slot when the committee that is after a new enterprise comes around with the subscription list.

Don't forget that in building up the town, hearty co-operation, united endeavor and a spirit of get there are what win the day. There is no pull like a long pull, a strong pull and a pull together.

A Waste of Pigskin!
The high cost of shoes and other necessities that are made of leather in world-wide, and is attributed in large part to sheer scarcity of material. Nor does the Federal govern-

ment's recent survey of the leather situation offer much hope of early relief. About the only hope, in fact, lies in the possible utilization of leather-supply sources hitherto neglected.

Which has given rise to the query: Why not skin the pigs before making them into bacon?

There is an old-fashioned idea that bacon and ham could not be cured properly without the "rind" on, but science has discounted it; and the exigencies of these times may work to banish it entirely. It is an erroneous one, just as is the idea—which is kept alive only by custom—that the porker must hang in the market stripped of his bristles, but not his hide.

Pigskin's value for a number of purposes is well recognized. And it is employed to a limited extent, but not as a stable leather. Shoe manufacturers, however, are said to be seeking ways to utilize it in their business, and doubtless they would employ great quantities of it in place of cowhide and calfskin but for its scarcity.

That swine could be made a potential supply of leather is indicated by the United States Department of Agriculture's estimate that there are upwards of 70,000,000 of these animals on American farms to-day. Yet the output of pigskin leather is negligible. Federal statistics show that at only seven of the principal stock yards of the country last year more than 22,000,000 hogs were marketed. Yet all of that pigskin was wasted.

IN FLANDERS FIELD.

(A Reply.)

In Flanders Field the cannons boom And fitful flashes light the gloom, While up above, like eagles, fly The fierce destroyers of the sky. With stains the earth wherein you lie Is redder than the poppy bloom In Flanders Field.

Sleep on, ye brave. The shrieking shell, The quaking trench, the startled yell, The fury of the battle hell, Shall wake you not for all is well.

Your flaming torch aloft we bear, With burning heart an oath we swear To keep the faith, to fight it through, To crush the foe, or sleep with you In Flanders Field.

Made of flat steel spring a quickly adjusted belt has been invented to take the place of strings on kitchen or laboratory aprons.

RED CROSS CHAPTERS MUST NOT ACCEPT SHORT SOCKS.

The Lake Division News, published at Cleveland, Ohio, in the interest of the American Red Cross Society, sends out the following warning to Red Cross Chapters:

"From National Headquarters and also from superintendents of inspection in the Lake Division of the Red Cross, we have received reports that the socks are coming in short in the foot and of uneven length.

"We therefore, ask the chapters to accept nothing less than a 10 1/2 foot. Sizes 10 1/2 to 12 1/2 are acceptable. On account of greater comfort for the feet and also the durability of the sock, we are encouraging hand knitting.

"We would recommend to the chapters having machines, that they knit 10 inches of the leg on the machine and then turn over the socks to be finished by hand. This method will insure an inch of knitting before commencing the heel.

"We would also caution against the pointed toe. Socks should never be closed at the toe with less than 20 stitches on the two needles. In placing the label on socks, cuff of sock should be stretched before sewing in label."

We may have passed the days of bock beer, but the latest substitute for lager carries a buffalo bull for a trademark. We always seem to be passing the buck or throwing the bull.

CITY MEN GOOD FARM WORKERS

Use of city men as farm workers in emergency seasons has demonstrated not only that many men employed in cities and towns were reared on farms and are skilled in harvest labor, but also that city men can stand

on their feet in the field.

The following is a list of the men who have been engaged in the harvest work in the state.

GERMANS NOW CALL THE AMERICANS "SATANS."

"Satans" is the pet name for American soldiers among the men in the German Army, according to a letter written by Lieut. Ranke, who, as "office-war correspondent," writes for the German papers stories of individual deeds of bravery by Germans whose names, addresses and occupations are given as tending to encourage local patriotism.

In a letter to the Dusseldorf *Na-* christen he tells of a skirmish between a patrol of men from that city with an American patrol, who by their "impudent audacity" had been giving the Germans much trouble. Both parties were hidden in shell craters, he says, and stalked each other for eighteen hours, with the result, according to the story, that three wounded American "Satans" were brought in. For their work their captors received iron crosses.

CURE FOR DYSENTERY.

"While I was in Ashland, Kansas, a gentleman overheard me speaking of Chamberlain's Colic and Diarrhoea Remedy," writes William Whitetlaw, of Des Moines, Iowa. "He told me in detail of what it had done for his family, but more especially his daughter who was lying at the point of death with a violent attack of dysentery, and had been given up by the family physician. Some of his neighbors advised him to give Chamberlain's Colic and Diarrhoea Remedy, which he did, and fully believes that by doing so saved the life of his child. He stated that he had also used this remedy himself with equally gratifying results."

High Tide In Telephone Traffic

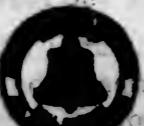

This chart shows the extraordinary growth of long distance traffic on the Bell system under war conditions. The difficulties in keeping pace with such demands may be appreciated when it is understood that the cost of material entering into the manufacture of telephone equipment has practically doubled, in addition to the abnormal increase in the price of labor and the shortage of both labor and material with which to add to our facilities.

Upon the declaration of war, the Bell system pledged its entire service unreservedly to the government. The demand from that source is already great and is increasing hourly; moreover, the extraordinary increase in telephone traffic due to the unprecedented commercial and industrial activity incident to the war is also making itself felt.

The problem before us is a serious one and we realize the service may probably be slowed down during the coming months. We want you also to understand the situation and to know that the operators are serving you cheerfully and to the extent of their ability, but under difficulties for which there is no immediate remedy and which you cannot realize without visiting the operating room.

We ask that you co-operate with us by observing patience and care in the use of the telephone and by eliminating useless and frivolous calls.

BOURBON COUNTY CATTLE FOR THE STATE FAIR.

Bourbon County is getting ready to pull down the big premium at the Kentucky State Fair to be held at Louisville, September 9-15, in show rings for the best bunch of 15 head of fat cattle, six head and one bullock, the two latter to be selected from the herd.

Two herds are now in the fattening lots, a bunch of 21 head of Polled Angus two-year-old cattle, fed and conditioned by James Caldwell and a like number of fancy yearling Shorthorns now on feed at the Mackey farm of H. S. Caywood, on the North Middletown pike.

The State Board of Agricultural divided the State into three districts from which ten herds of show cattle will enter the ring in competition for the best beefeves, any breed or age.

The Bluegrass district will be represented by the Caldwell and Caywood herds and a herd of the three-year-old Shorthorns belonging to Harvey Chenault, of Madison County.

Bourbon County in 1917 started the movement to revive the breeding not only of thoroughbred cattle, but also to stimulate renewed interest in the feeding and fattening of beef cattle for the highest price prevailing for commercial cattle, when Henry S. Caywood fed a herd of show cattle for the Great International Live Stock Show held in Chicago.

Bourbon county annually produces around 5,000 fat cattle that find their way to Eastern markets and compose the meat menu of the best Eastern hotels in New York, Philadelphia, Baltimore and other big cities. These cattle are the pick of the herds of cattle from the best farms in the county. They are grazed heavily on succulent bluegrass in the fall of the year, fed in barns and pens during the winter on corn, hay and silage, until late in the spring and then given a finish of about forty days on green grass. They go to market in a finished condition for the meat block and the tender, juicy steaks and roasts command the highest prices.

In order to produce more cattle bigger and fatter cattle Caldwell and Caywood are in the vanguard of Kentucky feeders and it is predicted that within a few years every county in the Bluegrass will be right in the front row in cattle production and in the competition that will send many herds of show cattle to the State, inter-state and International shows.

All of this seems reasonable as Central Kentucky has the health giving properties of the bluegrass which the Western, Southern and Northern sections have not. Bluegrass produced corn silage is also more nutritious than Western corn silage by reason of the fact that corn grown on a limestone soil has a flavor and protein quality with which no other corn silage can compare, hence cattle so fed and so grazed go to market with a higher percentage of juicy meat flavors than are discernable in any other cattle from any other section. These facts are well known to the big packers of the country who take the bluegrass fed cattle for the more fastidious consumers of the East.

The Caldwell bunch of Polled Angus were selected one from among a total of more than 3,000 feeders by Mr. Caldwell himself, who is accredited with being one of the best judges of a finished or unfinished steer in the Bluegrass section. The cattle were well wintered and on May 1, when the herd was on feed for the State Fair, they kicked the beam at an average of 1,170 pounds. They were given a daily balanced ration of four pounds cotton meal, 45 pounds of crushed corn, clover hay and sheep oats. This amount of feed was fed in equal quantities at 6:30 a. m. and 5 p. m. daily. In 70 days the herd was weighed again and showed an average weight of 1,410 pounds, or a daily average gain of 3.40 per head per day. Mr. Caldwell will continue feeding the cattle up until the day of the exhibit and figures the cattle will weigh an average of 1,525 pounds a head. The cattle will be not only in the pink of condition from a meat standpoint, but they will be put through a daily routine of bath, currying and smoothing out of the hair.

The Polled Angus as exploited by Mr. Caldwell are noted for their broad backs, heavy rumps, short legs and good cutting steaks right down to the hock. In type they are distinctive, in size, equal to that of the Shorthorn and in conformation smooth, rolling and well filled out.

They show fine head and neck and it is said when dressed for the block are easily detected by the butcher apart from that of carcasses of other breeds.

The cattle and the feed and such expenses as will be incurred in the preparation of the bunch for the show ring, Mr. Caldwell estimates will cost \$5,500. He figures the cattle will sell at from 22 to 25 cents a pound and will bring upwards of \$6,000, which, with proceeds from the sale of the hogs following the herd, will make a nice profit.

The Caywood bunch of 21 cattle are what might be termed at the Louisville show, baby beefeves. This bunch is just one year old and came from a Colorado selection. They are 90 per cent pure bred Shorthorn stock and for type and conformation are a fine representation of that breed of cattle so famous and noted in the annals of Kentucky cattle breeding before and after the Civil War, extending as far down as the early eighties and not yet extinct by any means. The breeding of pure bred Shorthorn cattle is being revived again and it will not be many years before this fine breed of beef cattle will come back into its own.

When Mr. Caywood received this bunch of cattle last February, picked with the view of going into the show ring, they weighed an average of 820 pounds. They will now average 1,150 pounds at the age of one year. The ration fed the cattle is the same as with the Caldwell herd with the exception no sheep oats is fed.

Win or lose in the Louisville exhibit Mr. Caywood will return the cattle to his feeding pens and will continue to push the herd for exhibit at the Great International Show at Chicago during the winter months.

Bourbon County has sent to market within the last several months thousands of fat cattle that have

Packers' Profits
—Large or Small

Packers' profits look big—

when the Federal Trade Commission reports that four of them earned \$140,000,000 during the three war years.

Packers' profits look small—

When it is explained that this profit was earned on total sales of over four and a half billion dollars—or only about three cents on each dollar of sales.

This is the relation between profits and sales:

Profits

Sales

If no packer profits had been earned, you could have bought your meat at only a fraction of a cent per pound cheaper?

Packers' profits on meats and animal products have been limited by the Food Administration, since November 1, 1917.

brought as high as from 15 to 16½ cents per pound. The cattle feeding industry is making more money for the feeder now than at any previous time in the history of Central Kentucky and farmers are awakening to the fact that it pays to make the veal calf into a 1,200 pound baby steer at the age of one year rather than ship the calf to the Cincinnati market for veal purposes.

An order for 240,000 pairs of knee-length rubber boots for the French army has been placed with American manufacturers.

Resolution!

A RESOLUTION IN REGARD TO A NOTICE THE CITY OF PARIS HAS SERVED ON THE PARIS GAS & ELECTRIC CO., IN REGARD TO THE FORFEITURE OF ITS ORIGINAL FRANCHISE IF THE TERMS OF IT ARE NOT COMPLIED WITH.

City Hall, Paris, Ky., Aug. 8, 1918.

WHEREAS, The Electric Light & Paris franchise whereunder he Paris Gas & Electric Company claim to operate, was created for purpose of producing, distributing and selling electric current in Paris, Kentucky, and for that purpose the terms of said franchise require that the purchaser of said franchise shall install in Paris an up-to-date electric plant for the purpose of producing and supplying electric current for lighting, heating and power to the City of Paris, Kentucky, and to all the citizens thereof; the said current shall be furnished during the entire twenty-four hours, except during such times as said plant may be disabled because of unavoidable accidents, strikes or casualties, and

WHEREAS, Said Paris Gas & Electric Company has failed and refused to comply with said terms and conditions in that it has not and does not now produce said electric current in Paris, Kentucky, in the manner aforesaid, therefore,

BE IT RESOLVED, That said Paris Gas & Electric Company be and is hereby required to comply with and perform each and every one of the said terms and conditions of the said franchise and is especially required to begin on or before Aug. 10, 1918, to produce in Paris, Kentucky, and to continue to produce in Paris, Kentucky uninterruptedly for twenty-four hours each and every day, save under the contingencies aforementioned, all the electric current distributed and sold in Paris, Ky., to its present customers or consumers or those who shall apply to it for such services in the future, and be it further

RESOLVED, That a copy of this resolution be served upon the Paris Gas & Electric Company and that said Paris Gas & Electric Company be and is hereby requested to notify the City of Paris, Kentucky, in writing on or before August 12, 1918, that it has complied with the terms and conditions of this resolution.

Wednesday—Woman's Society Episcopal church.

Friday—Woman's Society Presbyterian church.

Saturday—Teachers' Circle.

Attention, Knitters.

Soldiers' Socks, Sizes 10 1/2 to 12 1/2 Needed.

From National Headquarters and also from the superintendent of inspection, reports have been received to the effect that socks for the soldiers are coming in short in the foot and of uneven length.

Therefore, those who are knitting are asked to send in nothing less than a 10 1/2 foot. Sizes 10 1/2 to 12 1/2 are acceptable. On account of greater comfort for the feet and also the durability of the sock, hand knitting is preferable to machine knitting.

Caution is also asked against the pointed toe. Socks should never be closed at the toe with less than 20 stitches on the two needles.

Notwithstanding the hot weather, an enthusiastic response followed the call for knitters to produce Bourbon's quota of wool garments.

The following communication from the Lake Division News Bulletin explains the temporary shortage of yarn: Lake Division allotments of socks total one-half million pairs, requiring 125,000 pounds of sock yarn. The wool situation to-day is such that we are fortunate indeed to receive spasmodic shipments of 9,000 pounds, 15,000 pounds and 25,000 pounds. These shipments will continue to come to Division Headquarters until we have received our entire allotment of yarn.

It therefore becomes necessary for us to distribute each of these shipments as they are received and in such quantity to each chapter as the amount of the individual shipment received by us at the time will permit.

Whatever the percent of sock yarn you receive, you may rest assured that it is the very best we can do and that from this date forward all chapters will receive an equal percentage. In other words, each chapter will get its just proportion of sock yarn from each shipment received at Division headquarters.

HOT WEATHER BARGAINS.

Men's \$14.00 Palm Beach Suits reduced to \$8.75.

MATRIMONIAL.

WHALEY—DUVALL.

One of the surprise events of the season, though of course the knowing ones who had watched the progress of the courtship "knew all about it," was that which united in marriage Miss Princess Whaley and Mr. John Duvall, both of Paris. The wedding was solemnized Saturday evening at the home of the officiating minister, Rev. W. E. Ellis, pastor of the Paris Christian church, in the presence of relatives and intimate friends.

After the ceremony and receipt of congratulations Mr. and Mrs. Duvall left for a bridal trip to points on the Kentucky river, and for a honeymoon visit to relatives of the groom, in Franklin county, where he formerly resided. On their return Mr. and Mrs. Duvall will go to house-keeping in a cottage in this city.

The bride is one of the city's most popular young business women, having for many years been bookkeeper and stenographer in the office of the Paris Gas & Electric Company. In that capacity she made a host of friends by her courtesy and by her attention to business. She is a daughter of Mr. H. Clay Whaley, of Cypress street, and a sister of the Misses Whaley, of Paris, and Mrs. Hoffman Wood, of Mt. Sterling. The groom came to Paris from Frankfort several years ago and entered the employ of the Kentucky Traction & Terminal Co., as motorman and conductor on the city car. The company has never had a more popular or efficient employee, and hundreds of patrons of the line will echo the good wishes of other friends, including THE NEWS, for a long and happy wedded life.

THEatre AND RESTAURANT BURNED IN HAZARD.

Fire which started in a restaurant at Hazard, Ky., early Sunday morning destroyed the old Perry theatre building, which was occupied by the restaurant and the Star billiard hall. The loss is \$15,000.

NEW AUTO OWNERS.

Mr. Claude Weathers, of near Paris, purchased last week of the Kitterell & Calloway Garage, of Lexington, a model 490 Chevrolet machine. The car was delivered yesterday to the purchaser.

WEATHER MAKES WATER AND ICE SHORTAGE SERIOUS.

With the mercury fighting for a chance to stop over the top of the tube for over a week, the weather situation in Bourbon county has become serious. The county is threatened with a water famine, in those sections remote from creeks and branches. Crops are badly in need of rain, vegetables in gardens are drying up. The springs have shown the effect of the hot weather with the exception of the "never-failing" variety. People depending on springs for their water supply for drinking and domestic purposes, and for live stock purposes, are being put to a great deal of inconvenience, although there has been no real suffering yet. Gardeners are making many complaints of the ruinous effect of the hot dry weather.

In the city the increased demand upon the facilities of the Paris Ice Manufacturing Company has resulted in a near-famine, and unless the hot weather abates, the strictest economy in the use of ice may have to be observed. All day Sunday and far into the night vehicles of all descriptions wended their way to the ice plant, to replenish their depleted supplies.

The drain upon the supply and the reserve stocks became so heavy that conservation had to be practiced, and only a certain quantity would be sold to any one. Persons who had called for fifty pounds could only get twenty-five or thirty pounds. Manager Phil Nippert did everything that could be done to accommodate the public, but the demand outran the supply, resulting in an ice shortage.

JUNIOR RED CROSS HAS VERY SUCCESSFUL SALE

Seven members of the Junior Red Cross Society held a sale of donated articles at the G. S. Varden & Son's drug store, Saturday afternoon. The sale was a most successful one, bringing the young people \$19.10. The articles for the sale were donated by the merchants of Paris.

The young ladies who had charge of the sale were Misses Rebecca Purnell, Mary Petree, Elsie Morrison, Virginia Morrison, Mary Varden, Nell Winn Hinton and Elizabeth Whitley. The sale was continued through yesterday, realizing a total of \$21.

FUGITIVE FROM JUSTICE HELD TO GRAND JURY.

Fleeing from North Middletown, where he shot at Policeman J. M. Allen, Dulaard Haley, colored, of that city, was arrested by the Mt. Sterling police and returned to Paris. He was arraigned before County Judge Batterson, Saturday, on the charge of shooting at an officer with intent to kill, and held to the Grand Jury in \$250 bond.

"Sergeant Arthur Guy Empey is one of the finest natural actors to come under my supervision," is the emphatic statement of Albert E. Smith, President of the Vitagraph Company of America, whose film production of Empey's famous war story, "Over the Top," starring the soldier-author in the very role he enacted for 18 months in the trenches, will be presented on the screen for the first time at the Paris Grand, Saturday, August 17th.

Sergeant Empey is already famous as a fighter, lecturer and author. He enlisted in the Royal Fusiliers of London in 1915, served for 18 months in the first line trenches as machine gunner and bomber, and was honorably discharged after receiving seven wounds "going over the top" in raids against the Huns.

Returning to America, he wrote his war epic, "Over the Top," which to date has been read by some 3,000,000 people, it is estimated. Immediately upon the publication of his book, Empey commenced lecturing for patriotic causes. He recruited thousands of men, sold \$1,011,000 worth of liberty bonds, raised \$50,000 for "smoke" funds and then went into the motion picture business to show through the Vitagraph production of "Over the Top" just what we are up against over there.

James Morrison appearing with Sergt. Arthur Guy Empey in Vitagraph's master production, "Over the Top."

SHADE TREES REMOVED

The big shade trees bordering the street on Duncan avenue in front of the residence of Miss Lizzie Grimes and Mr. Robt. C. Talbott, have been cut down and taken away. The trees began to show signs of internal decay and it was deemed best to remove them.

The trees were among the oldest in Paris, having been planted there when Paris was but a hamlet of a few hundred people, and Duncan avenue merely a village lane. The residence was the home of the late Minor Hibler, a prominent citizen of Paris in the early days of the city. It had passed through various stages of remodeling and additions until it had reached its present proportions.

GOING AFTER MOTORISTS

If a man is able to have an automobile he ought to still have sufficient money left after gasoline bills are paid to replace lost license tags, have both headlights in working order and provide "dimmers." At least that is the philosophy of Chief of Police Regan, of Lexington, who Sunday went after motorists who, it is alleged, have become rather lax in regard to these matters.

As a result of the activity of the police department seventeen motorists had charges placed against them and they were before Police Judge Riley yesterday morning to explain why certain things are as they are said to be, and why certain other things were not in the places the police department has said they should be.

Among those caught in the police dragnet were R. V. Biggerstaff, Route 1, Paris, and Gray Broderick, of Paris. Broderick was fined \$5 by Magistrate Boone on a charge of running his automobile without lights.

NOTED Y. M. C. A. WORKER TO
LECTURE HERE.

Dr. Acheson, for a number of years, President of the Caldwell College, (now Kentucky College for Women), at Danville, Ky., and at present President of Pennsylvania College for Women, of Pittsburgh, Pa., will give a lecture at the court house in Paris, Tuesday, August 13, at 8:00 p. m.

When the Y. M. C. A. wanted to send a special investigation committee to France and Italy they selected Dr. Acheson as one of the three most efficient men in America to investigate Y. M. C. A. work and educational conditions at the front. He has returned and given his report, much to the satisfaction of the Y. M. C. A. staff and to all who have heard him. He covered 5,000 miles on his investigation tour.

In his addresses to be given, (one at the Methodist church in Millersburg at 3:00 p. m., and the other in the Paris court house at 8:00 p. m.) he will give a description of the conditions as they actually exist to-day among our boys at the front, both in the East and West. No one can hear his address who will not come away feeling that he lives in a better country and that his country is taking the stand which she should justly take in this great strife for humanity.

Make your plans to attend this lecture this evening.

SOCIAL AND PERSONAL.

Comings and Goings of Our People Here, There and Elsewhere.

Mrs. Wm. Timmins, of Lexington, is visiting friends in this city.

Mr. Martin Ammerman, of Cynthiana, is a guest of his aunt, Mrs. Thos. C. Whaley.

Miss Patsy Clark has returned from a two-weeks' visit to Miss Willie Lee Clark, in Lexington.

Mrs. Taul, of Winchester, is a guest of Mrs. N. B. Hedges, at the Pinecrest Flats, in this city.

Mr. and Mrs. Pendergrass and daughter, Miss Lillian, have returned to their home in Ravenna, Ky.

Miss Lottie Mac Harris, who has been a guest of Paris relatives, has returned to her home in Owingsville.

Mrs. John T. McClinton, of Huntington, West Virginia, is a guest of Mr. and Mrs. Chas. N. Fithian, on Pleasant street.

Mr. and Mrs. Thos. C. Whaley, of Paris, attended the funeral and burial of Mrs. Frances Lafferty, in Cynthiana, Sunday.

Misses Renlyn and Burch Duncan have returned to their homes in Nicholasville, after a visit to Miss Delta Poe, in Paris.

Misses Nine and Anna Thompson have returned to their home in Midway after a visit to Miss Margaret Burnett in this city.

Mrs. J. E. Barnett and little son, J. E. Barnett, Jr., of Lexington, are guests of her parents, Mr. and Mrs. J. W. James, on Fourth street.

Mrs. J. C. Martin has returned to her home in Cynthiana after a visit of several days to her daughter, Mrs. Thos. C. Whaley, and Mr. Whaley, in Paris.

Mr. J. T. Martin is recovering from injuries sustained recently by being knocked down by a passing automobile near the corner of Main and Fourth streets.

Mrs. Carrie F. Stone is visiting her daughter, Mrs. Lee Starke, in Louisville, and her son, Private Geo. L. Frakes, at Ft. Benjamin Harrison, near Indianapolis.

Misses Anna Hickman, of Flemingsburg, and Rebecca Claybrook, of Maysville, who have been guests of Miss Elise Varden, will return to their respective homes to-day.

Mr. and Mrs. I. D. Thompson left Saturday night for Rochester, Minn., where Mr. Thompson will undergo an operation at the Mayo Bros' Hospital for kidney trouble.

Miss Mary Kenney underwent an operation at the Good Samaritan Hospital, in Lexington, Saturday. She was reported yesterday as getting along as well as could be expected.

Mrs. J. W. Wind and daughter, Miss Nancy Wind, were called to Indiana, by the illness of Mrs. Wind's brother, Mr. Wm. Dinsmore, of Newcastle, Ind. Mr. Dinsmore underwent a serious surgical operation in an Indianapolis hospital.

Mr. and Mrs. Henry J. Grosche left yesterday morning for a protracted visit to relatives of Mrs. Grosche in Detroit, Mich. Wishing to keep in touch with doings in the "old home town" during their absence they ordered THE NEWS to be sent them at Detroit.

Mr. and Mrs. Ray Harris returned Friday night from their honeymoon trip to Cincinnati and Akron, O., where they were guests of friends and relatives. They were accompanied by Mrs. Eva Dinnitt, the bride's grandmother, who will visit friends and relatives in Paris and Cynthiana.

"On the road to Boonesboro" was the slogan of hundreds of Paris people who motored to that popular bathing beach Sunday. The beach was lined with hundreds of spectators, while the river was full of bathers, who disported themselves in the cooling waters. Paris and Bourbon county people were very much in evidence, and enjoyed themselves to the fullest.

(Other Personals on Page 3.)

COMING ATTRACTIONS AT PARIS
GRAND AND ALAMO

To-day, Tuesday, August 13.—A. H. Woods' Broadway success, "The Guilty man;" William Duncan and Edith Johnson, in third episode of "A Fight For Millions;" last episode of "The House of Hate."

To-morrow, Wednesday, August 14—George M. Cohen, in his own play, "Hit-The-Trail-Holiday;" also a Luke Comedy, and Pathé News Feature.

Thursday, August 15—Constance Talmadge, more charming than ever, in "Up The Road With Sallie;" Mutt and Jeff Comedy, "Extra Quick Lunch," and a Pathé News Feature.

HAIL INSURANCE.

Bryan. Prompt paying companies.

(June 25-26)

RECORDING MACHINE INSTALLED
IN LOCAL POSTOFFICE.

An automatic time-recording machine to register the time of arrival and departure of employees, has been installed in the Paris postoffice by Postmaster J. Walter Payne. The machine keeps an accurate record of the actual working hours put in by the office force. Rural route carriers do not have to register.

RELIGIOUS.

The protracted meeting at the Bethlehem church has closed with a total of thirty-eight additions. The services were conducted by Rev. Mark Collis, of Lexington. The meeting was one of the most successful and enthusiastic ever held in the county.

Rev. Frank M. Tinder, pastor of the North Middletown Christian church, will begin a revival meeting at the Leesburg Christian church today. During Rev. Tinder's absence his pulpit at the North Middletown church will be filled by Rev. J. R. Jones, pastor of the Cynthiana Christian church.

STOCK, CROP, ETC.

Mr. Richard A. Wills, of Paris, purchased of Harrison and Bourbon county parties twenty-five head of good driving horses at prices ranging from \$60 to \$150 per head. The animals were shipped to the Bishopville, North Carolina market, where the demand is strong and the supply scarce.

Mrs. Elizabeth B. Giltner, Piano and Violin, Studio 227 Seventh Street. Term Opens September 2, 1919.

LIFT OFF CORNS!

Drop Freezone on a touchy corn, then lift that corn off with fingers.

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out! Yes, magic! No humbug!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

"DEADMAN'S CURVE" TO BE STRAIGHTENED.

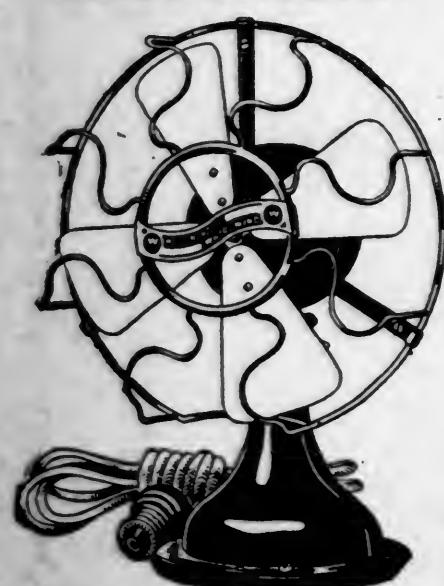

County Judge F. A. Bullock, at a meeting of the Fayette Fiscal Court Wednesday morning, instructed County Road Engineer F. E. Kurzenknebe to make a survey and prepare an estimate of the expense which would be entailed in straightening "Dead Man's Curve," three miles from Lexington on the Maysville road. The curve has been the scene of nearly a score of accidents within the past few years.

THE ALLIED AMERICAN ASSOCIATION'S STATES VIEWS

Steps have been taken to check the flood of population pouring into the cities from the farms at the time when the war's greatest need is to increase the acreage producing farm crops, an association having been formed, with governors of many States on the Advisory Board, to present farm opportunities in a novel and sweeping way.

The announcement that the Allied American Association, with headquarters in Chicago, has completed the enlisting of over a thousand daily newspapers and over a thousand motion picture theatres in the task of arousing communities to take up locally and vigorously as Liberty Bond campaigns, efforts to increase food production, is another victory won at the same time that Pershing's armies and the French drove the German's drive backward in a smashing defeat.

"The rush to the cities has become an ominous flood when already the urban population of the United States has increased to 55 per cent. of the total instead of the 30 per cent. in 1880, the 44 per cent. in 1890, and, to go back to early days, to 13 per cent. of Colonial days," said President Ward D. Williams, of the Allied American Association. The trouble is that people do not realize that farm life to-day can be altogether different to farm life ten or twenty years ago, to say nothing of primitive times. When we have produced a motion picture epic which the Committee on Public Information will release it will be possible for city people to visualize what they can have and how they can live on a farm. By our distribution of that and other pictures and the publicity which has been agreed to by our newspaper membership, a check will be given the rush to the cities in mistaken search for better living and greater opportunities. There will be dozens of other films which the enlisted newspapers will announce to their communities and which will be used to make the feature of public and patriotic occasions.

"The great war problem of labor is to create an incentive to greater efforts and this can be done, we know from experience, by means of motion pictures provided there is co-operation by the daily newspapers in getting great audiences to see the pictures and at the same time hear the story told of the need for more acreage in crop and more crop per acre. "What we need is public co-operation with the work which already has been done quietly in getting our great regiment of newspapers and our regiment of 'movie' theatres enlisted for the more food drive.

"Let us not forget that the signs with which Uncle Sam has plastered public buildings from the Atlantic to the Pacific 'Food Will Win the War' will have significance after the victorious conclusion of the war, whenever that may come. The world is short of foodstuffs and it is to the United States and Canada that the hungry and starving nations must continue to look for years and years. High prices of all that the farm produce will continue and are right now filling the banks with farmers' money. Farmers are prospering as never before and their prosperity is the foundation stone of our national future in commerce and industry.

"The great campaign to show the opportunities of States in the East, West, North and South, to the millions of people who will be reached by the Allied American Association's regiments of enlisted institutions will serve as a means by which to arouse, as they need to be aroused, the communities in the United States to genuine, war-time zeal in campaigning for more food as they have campaigned for Liberty Bonds. Communities have been leaving the crop problem too much to Uncle Sam.

"Let it not be forgotten that the newspapers of America are trying to make their public realize that the future of those communities, for growth or decline, depends upon their response to the call to win the war. They will be able, through our plans, to swing the motion pictures into the work of compelling 100 per cent. devotion to all the calls of war and particularly increasing crops and acreage throughout the land.

"Owners of big tracts of land, railroads and other big interests can get definite results now by joining in the program of action of the most dynamic kind."

The States represented on the Advisory Board of the Association which has worked out this public service program are: Minnesota, South Dakota, Nebraska, Kansas, Iowa, Texas, North Carolina, Mississippi, Alabama, Arizona, Georgia, Florida, West Virginia, Arkansas, Utah, New Mexico, Oregon, South Carolina, Nevada, Wyoming, Missouri.

If the Senate believe President Wilson already has authority to take over wires, why does it object to giving him that right by statute?

GOVERNMENT CONTROL ASKED FOR STOCK YARDS, ETC.

WASHINGTON, August 12.—Government acquisition and control of all the principal stock yards, cold storage plants and warehouses, and both refrigerator and cattle cars has been recommended to the President by the Federal Trade Commission to destroy a monopoly which, it declares, Swift & Co., Armour & Co., Morris & Co., Wilson & Co., Inc., and the Cudahy Packing Company exercise not only over the meat industry of the country, but other necessary food supplies.

The commission's report is based upon exhaustive hearings conducted recently in many cities and was made public Thursday through the White House. It has been in the hands of the President since July 5, and it was explained that it had not previously been issued "because the President wished first to be in possession of full information."

Basing its statement upon a great volume of evidence examined, much of it taken from the confidential files of the packing companies, the commission said the power of the packing companies "has been and is being unfairly and illegally used."

To manipulate live stock markets.

To restrict interstate and international supplies of food.

To control the prices of dressed meats and other foods.

To defraud both the producers of food and consumers.

To crush effective competition.

To secure special privileges from railroads, stock yard companies and municipalities, and

To profiteer.

"While we have found," said the commission's report to the President, "and will disclose to you an intricate fabric of monopolies, controls, combinations, conspiracies and restraints' which would seem to indicate a similarly complex and minute system of legislative or administrative remedy, we believe that an adequate remedy may be more simply arrived at.

"We believe that if the fundamental and underlying evils are rooted out the whole structure of conspiracy, control, monopoly and restraint must fall.

If these five great concerns owned no packing plants and killed no cattle and still retained control of the instruments of transportation, of marketing and of storage, their position would be no less strong than it is."

The commission then recommended:

"1. That the Government acquire, through the railroad administration, all rolling stock used for the transportation of meat animals and that such ownership be declared a Government monopoly.

"2. That the Government acquire, through the railroad administration, the principal and necessary stockyards of the country, to be treated as freight depots and to be operated under such conditions as will insure open, competitive markets, with uniform scale of charges for all services performed, and the acquisition or establishment of such additional yards from time to time as the future development of livestock production in the United States may require. This to include customary adjuncts of stockyards.

"3. That the Government acquire, through the Railroad Administration, all privately owned refrigerator cars and all necessary equipment for their proper operation and that such ownership be declared a Government monopoly.

"4. That the Federal Government acquire such of the branch houses, cold storage plants and warehouses as are necessary to provide facilities for the competitive marketing and storage of food products in the principal center of distribution and consumption. The same to be operated by the Government as public markets and storage places under such conditions as will afford an outlet for all manufacturers and handlers of food products on equal terms. Supplementing the marketing and storage facilities thus acquired, the Federal Government establish, through the Railroad Administration, at the terminals of all principal points of distribution and consumption, central wholesale markets and storage plants with facilities open to all upon payment of just and fair charges."

CATARRHAL DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

LOANS TO OUR ALLIES.

With another credit of \$100,000 to Italy and \$9,000,000 more to Belgium the credits advanced by the United States to our allies now total \$6,380,000,000.

With government encouragement, extensive experiments will be made with a view to reviving the growing of flax in Scotland.

ELECTRICITY DOING WAR DUTY

War necessities and the regular order of "industrial development" are in open conflict, since the latter is officially curtailed but is, nevertheless, extremely active in the production of the new necessities demanded for the great world conflict. Manufacturing plants have been springing up over night in every part of the country. These industries have taken the short cut in obtaining power, and instead of erecting great plants of their own, as in past years, they have usually annexed themselves to the existing institutions, and the information given out in Washington shows that upwards of sixty per cent of the industrial and factory power in the country is furnished by electric light and power companies.

An interesting feature of the condition shows that practically all of the so-called electric steel is manufactured through the medium of the electric furnace. These furnaces are largely operated with electricity furnished by lighting and power plants.

These facts have been brought out through the War Finance Corporation, which as a part of the war machinery of the national government has been as closely in touch with the industrial end of the United States as is the Federal banking system with the financial conditions.

To manipulate live stock markets.

To restrict interstate and international supplies of food.

To control the prices of dressed meats and other foods.

To defraud both the producers of food and consumers.

To crush effective competition.

To secure special privileges from railroads, stock yard companies and municipalities, and

To profiteer.

FAMOUS LIGHTSHIP SUNK BY GERMAN SUBMARINE.

WASHINGTON, August 12.—The Diamond Shoals lightship, off Cape Hatteras, N. C., was shelled and sunk by an enemy submarine late Tuesday, the Navy Department was Wednesday informed. The crew, who took to their boats, have reached shore safely. The submarine came within a mile of shore, according to the brief report which reached the Navy Department.

The Diamond Shoals light station is one of the most famous guides to navigation in the world and has been the subject of many a story in verse and prose. Such vessels usually manned by greybeards and are of such a type as to be utterly helpless in the face of an enemy attack.

The attacking submarine probably was the one that sank the tanker O. P. Jennings, 100 miles off the Virginia coast several days ago. Her exploit in showing herself above water within a half mile of the Carolina coast, in an important shipping lane, where innumerable patrol boats are supposed to be plying, is one of the most daring recorded since the German raiders first made their appearance on this side of the Atlantic.

The Diamond shoals ship guards the outthrust reefs of storm-swept Cape Hatteras, known as the graveyard of the Atlantic coast. It is imperative that the light be restored at once and certain steps to this end already have been taken by the commander of the naval district. If necessary a special patrol of anti-submarine craft may be established to prevent a recurrence of this incident.

The attack upon the lightship may represent a new phase of enemy submarine operations off the American coast, designed to hamper shipping by destruction of important navigation signals. On the other hand it may merely represent an isolated case of ruthlessness. If the raider definitely set out to destroy lightships, exposed lighthouses and the like, it is believed that he can do very extensive harm before his ammunition supply is exhausted.

Some officers doubt that any general campaign against navigation signals is planned. To do so, it was said, would make navigation of the coast line by the submarines too perilous, as they are wholly dependent on such aids to navigation to know their own positions.

CALLS FOR 130,207 DRAFTED MEN IN AUGUST.

WASHINGTON, Aug. 12.—Calls for 130,207 draft registrants qualified for general military service to join the colors before the end of August were issued Thursday night by the Provost Marshal General.

Of the 130,207 draft registrants called to the colors Thursday night to report this month, 13,145 men from Kentucky, Ohio and Alabama will be sent to Camp Zachary Taylor. Alabama will send 2,000 negroes, Ohio 6,650 white selectives and 325 negroes, and from Kentucky will come 3,350 white recruits and 818 negroes, all to go to Camp Zachary Taylor.

One hundred thousand white registrants from forty-three States are ordered entrained between August 26 and August 30. Twenty-one States and the District of Columbia are directed to furnish 30,207 negro registrants, to entrain August 22-24.

These orders bring the number of men called out in August to about 300,000, the number contemplated in the present military programme.

BOY SCOUTS HAVE BIG TIME IN EXTENSION DRAFT AGES TO SWIMMING CONTEST

An audience of 250 people witnessed the Boy Scout swimming tournament, Thursday night.

It was pronounced to be the best aquatic exhibition ever produced in Paris. The boys were divided in two teams, The Reds, captained by Leslie O'Neill, and The Blues, captained by John Dundon.

O'Neill proved himself to be the fastest swimmer of the boys by defeating John Dundon, by a foot.

O'Neill was the highest individual winner having 27 points to his credit. John Dundon, second, with 22 points and Robert Kirkpatrick, third, with 18 points.

The stunt features were very good, especially that of diving through a burning hoop by Roberts.

An exhibition of life saving work was highly appreciated by the spectators.

The following are the events and the winners.

Underwater Swim—Roberts, First; John Dundon, Second; O'Neill, Third; Front Flip—O'Neill, First; Moore, R. Second; Friedman, Third.

Dive for Form—Kirkpatrick, First; O'Neill, Second; J. M. Dundon, Third.

Twenty-five Yard Race—O'Neill, First; John Dundon, Second; Meglone, Third.

Twenty-five Yard Race Any Stroke—O'Neill, First; John Dundon, Second; Moore, E. Third.

Back Dive—Kirkpatrick, First; O'Neill, Second; Friedman, Third.

Jack Knife Dive—John Dundon, First; Roberts, Second; Friedman, Third.

Distance Dive—Chipley, First; Kirkpatrick, Second; Moore, E. Third.

Candle Race—O'Neill, First; Kirkpatrick, Second; Meglone, Third.

Back Race—O'Neill, First; Lair, Second; Roberts, Third.

Handspins—Minakuchi, First; Stern, Second; Moore, R. Third.

Swan Dive—John Dundon, First; Roberts, Second; Dundon, M. Third.

Staying Underwater—Friedman, First; Wright, Second; Dundon, J. Third.

Back Flip—O'Neill, First; Minakuchi, Second; Moore, R. Third.

High Dive—Dundon, First; Friedman, Second; Roberts, Third.

Distance Dive—Chipley, First; Kirkpatrick, Second; Moore, E. Third.

Candle Race—O'Neill, First; Kirkpatrick, Second; Meglone, Third.

Tub Race—Minakuchi, First, and Meglone, Second.

Relay Race—Was won by the Reds which contained the following: O'Neill, Kirkpatrick, Chipley and Stern.

Score—Reds 91; Blues 46.

Judge—Rev. R. C. Goldsmith.

BROTHERS CUT CARDS TO SEE WHO SHALL ENLIST.

Several months ago Arthur and Frank Murdock, brothers of Greensburg, Indiana, cut the cards to see which one should enlist in the army and which remain at home to provide for the aged mother, two other brothers having already entered the service. Arthur was successful, joined artillery and has been in France for some time. Wednesday, Frank joined the navy and soon expects to be doing his bit for the country in the war against Prussianism.

Lenine says the assassination of Mirbach was a political trick. Perhaps, but not as tricky as that Lenine and Trotsky played on the Russian people.

Australians are experimenting with a mammoth oil-driven harvester which strips grain fields at a rate of about sixty acres a day.

JUDGE BATTERTON RECEIVES LETTER FROM SOLDIER BROTHER.

WASHINGTON, August 12.—An audience of 7,000,000 fighting men will be one result of the extension of the draft ages between 18 and 45, in the opinion of War Department officials. This is the minimum figure, and it means that every man of the 7,000,000 will be of the type and physique of those now on the battle front in France.

Military men believe the class of 18 to 20 will yield 2,000,000 men. From the class of 21 to 31 the country has already taken 3,000,000 of the best soldier material in history, most of whom are now in France. The class of 31 to 45 is set down for another 2,000,000 men. Under the present plans, which provide that the boys of from 10 to 20 shall be trained here, the United States will have the largest reserve army the world has ever seen.

Bishop's Letter To His Brother George. July 12, 1918.

Dear George: You will have to excuse me for not writing, but I guess you know the Marines have been real busy the last month and a half. ***** We sure had a wonderful little battle up here and have won all sorts of praise from the high officers, of course. Our Company was in the biggest battle, it lasted for forty-five days, and I sure thank God that I came out alive.

You have no idea what this war is, until you have been in some real fighting, and we had to fight in a real thick woods, up hill and down, and over rocks that weigh a hundred tons.

The French have changed the name of the Woods to "Bois de la Brigade Marines," meaning "The Woods of the Marine Brigade." I want to send you a machine gun as soon as I get back to rest camp, which I captured from the Germans after killing four men who were operating it.

You ask if certain information is true, which you have heard through some Cynthiana boy. It seems like that boy is going to tell all I do over here, but I do not care, for I do nothing now that I am ashamed of.

You also asked about the Marines being separated. Wherever you see one Marine in a fight, the whole bunch is there for we have such a small bunch, they keep us together all the time.

I think I weigh now more than I did while I was at home for I weighed the other day, and was surprised to find out I weighed 201 pounds. This seems to agree with me, in on way. I'm in another it does not, and that's my feelings.

I was surprised to hear about Roy's twins, but I guess he could not help it. How is mother and dad been getting along this summer? I hope Ida had a good time on her trip out West. I will stop for it is getting time for supper. Write me whenever you can. Love to both you and Ida.

Your brother,
BISHOP BATTERTON.

STATE SPECIAL AGENT REPORTS ON WHEAT CROP.

LEXINGTON, KY., Aug. 12.—Four hundred and forty-four thousand bushels of wheat threshed in 29 counties of the State during July, according to the report of the thresherman which was wired Thursday to the United States bureau of markets by John R. Humphrey, head of the department of markets, University of Kentucky, who has been appointed special agent for forty-one counties to gather this information.

This amount of wheat was threshed from 24,000 acres, an average of eighteen bushels to the acre. Compared with the thresherman's report in these counties last year this is an increase of approximately 50 per cent.

Up to this year, Mr. Humphrey said, Kentucky has never been able to furnish its own bread and it is in these States that the Food Administration is anxious to have the wheat production increased in order not to be a draft on the great wheat States.

In the report of the twenty-nine counties, Bourbon County leads with a production of 56,274 bushels. Woodford ranks second with 4,755 bushels. Other leading counties that have reported are: Boyle, 36,930; Clark, 32,610; Warren, 30,779; Webster, 25,105, and LaRue, 23,113.

Reports from Fayette County have not yet been made. One thresherman, however, reported 5,202 bushels. All farmers who have not yet made a report are asked by Mr. Humphrey to do so at once.

Another thresher's war emergency report on wheat production will be made for August. The other counties of the State, which are not included in Mr. Humphrey's report, make their reports to county agents.

According to Mr. Humphrey the wheat production in Kentucky this year will exceed 11,000,000 bushels, an increase of over 2,000,000 bushels over last year.

A BILIOUS ATTACK.

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach and causes nausea, vomiting and a terrible headache. Take three of Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter. (adv-aug)

FARMERS MUST NOT FEED "SMUTTY" WHEAT TO STOCK.

W. E. Simms, district Food Administrator, is in receipt of a bulletin from State Food Administrator F. M. Sackett, of Louisville, stating that there is considerable smutty wheat in certain parts of the State, and he is daily receiving letters asking permission to feed it to stock. This is entirely against the rules of the Food Administration, as it is not permissible for wheat to be fed to stock under any conditions.

Smutty wheat can be reclaimed, and the Administration has been advised that the Liberty Mills, of Nashville, Tenn., and Ballard & Ballard, of Louisville, Ky., are equipped to handle it. Wheat that is damp can also, in all cases, be

DEATHS.

BILLS.

The funeral of Emmett Lee Bills, aged five, son of Mr. and Mrs. Guy Bills, who died Saturday afternoon at the home of his parents, near Jacksonville, this county, of typhoid fever, was held at the grave in the Jacksonville Cemetery. He is survived by one brother, Julian Bills, and three sisters, Misses Stella, Viola and Agnes Bills.

BROWN.

Mrs. Kate Brown, who died in Winchester last week, was the widow of Mr. James C. Brown, and was for many years a resident of North Middletown, moving some time ago to Jacksonville. The Brown family was one of the pioneer families of North Middletown. Mr. James C. Brown being the last member of the

family to move away. The old home where they resided in North Middletown is now owned by Mrs. M. M. Bacon, while the James C. Brown family owned and occupied the Lowe property, now occupied by Mr. Wm. Redmon and family.

JACOBY.

The funeral of Mr. John S. Jacoby, aged fifty-one, who died at the home of his mother, Mrs. Agnes Jacoby, near Hutchinson, in this county, Saturday afternoon, after a lingering illness of Bright's disease, was held at the family home, Sunday afternoon at five o'clock. Services were conducted by Rev. P. S. Rhodes, pastor of the Clintonville church. The

The pall-bearers were George Jacoby, Lyle Jacoby, Jos. Jacoby, Jas. Jacoby and Dr. William Kenney. Mr. Jacoby was a son of the late Mr. Jacoby, for many years a well-known farmer in the Hutchinson

vicinity. He was a bachelor and had made his home with his mother up to the time of his death. He was a member of the Paris Methodist church. He is survived by three brothers, Mr. J. W. Jacoby, Mr. M. R. Jacoby and Mr. J. L. Jacoby, his mother, Mrs. Agnes Jacoby, and one sister, Mrs. A. M. Hay, all of this county.

LAFFERTY.

Mrs. Frances Elizabeth Lafferty, aged eighty, died at the Harrison County Hospital, in Cynthiana, Saturday night, from the effects of a stroke of paralysis sustained several weeks ago. Mrs. Lafferty was the grandmother of Mr. Wayne Lafferty, who was for some time a resident of Paris, while in the employ of the Louisville & Nashville railroad company.

She is survived by four sons, W. T. Lafferty, Dean of the Law Department of the State University at Lexington; J. F. Lafferty, of South Bend, Ind.; John Lafferty, of Danville, Ill., and D. N. Lafferty, of Harrison county; four daughters, Mrs. J. P. Chamberlain, and Mrs. Joe H. Ewalt, of Harrison county; Mrs. Frank McMurtry, of Cynthiana, and Mrs. H. J. Martin, of Louisville.

The funeral was held at the Christian church, in Cynthiana, Sunday afternoon at four o'clock, with services conducted by Rev. J. D. Armistead. The burial followed on the family lot in Battle Grove Cemetery. The pall-bearers were her grandsons, Wayne Lafferty, Lee Taylor, Billy

Taylor, Marvin Chamberlain, Carl Ewalt and Bryan McMurtry.

MERRINGER.

Railroad men passing along the railroad tracks in the rear of the residence of Mr. John Merringer, Sr., on South Main street, at an early hour yesterday morning, discovered the body of Mr. Merringer lying in a path in his garden, where he had been at work for some time. They notified the members of the family, who were at home, and an investigation disclosed the fact that he was dead. Death resulted from heart disease, superinduced by Bright's disease, from which he had been a sufferer for some time.

Mr. Merringer was a native of Paris, where he was born fifty-nine years ago. He was a son of Mons. Michael and Mrs. Merringer, who came to Paris from their native province of Lorraine, France, in the early days of Paris, and operated an extensive truck garden on the property on Houston avenue, which is now built up in residences. The deceased assisted his parents in cultivating their gardens, which became noted in this section for the quality of their products. Some years ago he engaged in the truck garden business, having purchased a small farm on the Clintonville pike, near Paris. The insidious disease which had fastened on him compelled him to retire from active work some time ago, and he disposed of his farm, returning to Paris to reside. Mr. Merringer was a straight-forward, up-

right citizen who had many friends who will regret his passing.

Mr. Merringer is survived by his wife, who was formerly Miss Annie Connally, two daughters, Miss Annie Merringer and Mrs. Earl Culbertson, and three sons, Councilman John Merringer, Mr. William Merringer and Mr. James Merringer, all of Paris.

The funeral will take place at the Church of the Annunciation, in this city at nine o'clock, to-morrow (Wednesday) morning, with services conducted by Rev. Father Eugene DeBruyn. The burial will follow in the family lot in the Catholic Cemetery. The pall-bearers will be Martin Doyle, Martin O'Neal, John C. Kane, John DeJarnett, John McGinley, and John J. Connell.

Topeka is to have women street car conductors.

On Saturday morning to the wife of Mr. Aylette Buckner, of near Paris, a handsome daughter. Mrs. Buckner was formerly Miss Virginia Crutcher, of Paris.

U-BOAT COMMANDER WHO SANK LUSITANIA IS DEAD.

Lieutenant Commander Schweiger, who commanded the submarine which sank the Lusitania, is dead. His death occurred in September, 1917, but has only now been admitted by the German Admiralty, according to reports received in London.

Milwaukee machine shops employ more than 2,000 women.

IF YOU BUY YOUR CLOTHES HERE

If you buy your clothes here you are sure to get the best the market affords, and from the best makers in the country. Every suit is bought with the greatest care, feeling that we must give the best values of any store in Paris. Young men and men will find it a pleasure to buy here first, because of the service we give and because of the styles and values we give.

Hart Schaffner & Marx and Kirschbaum are the makers of our fine clothes, and we invite you to come in and inspect these lines.

We are also showing advanced styles in Fall Hats from houses of Knox and Crofutt & Knapp
